JustGrab

11/2019 - 8/2020 Bangalore, IN

JustGrab serves the purpose of providing a compelling Pre-food ordering experience for those who don't wish to wait in a queue. Reached 500+ downloads within a month

Data Scientist

Purpos.ai

8/2019 - 6/2020 Bangalore, IN

Purpos is a sports tech startup that focused into bringing digital transformation to sports academies across globe.

Finalist at Nasscom Design4India 2019.

My role involed data analysis, building & deploying ML models onto AWS, growth strategy, customer acquisition.

Founder, Trainer

CoderPhile

6/2018 - Present Bangalore, IN

Developers community, driven to enrich the skills of an individual in the field of Programming, Data Science & Entrepreneurship

Skills

- Entrepreneurship
- Growth Hacking
- Product Development
- Adaptive Learning

Education

B.E in Information Science Engg

JSS-ATE Bangalore, IN

2016-2020 CGPA - 7.5

Tech Stack

- Languages - Python
- ML & AI Algorithms
- Tensorflow 2.0 & Sk-Learn
- AWS - RedShift, EC2, Lambda, Beanstalk
- Database - MySQL, MongoDB
- Visualization Tool - Tableau
- RestAPI - Flask
- Web/App Dev - Flutter
- Version Control - Git
- Virtualization - Docker

Projects

● Fast Track Content

This project aims at building a content modelling system in which your data is summarised to required content so that you read more in less time. Uses NLP and Google Text to Speech

● Loan Estimator Intelligence

Code that performs analysis to find patterns of loan defaulters & predictions using ML techniques to automate the process

● Customer Analysis (Tableau)

Using data of US bank to find patterns across their customers & gains insights using BI tools for targetted campaigns

● CO-19 Supply & Demand

Experimented in building a product(open platform) that bridges a gap between those willing to provide services to those in requirement of a service

● Next Talent

Machine learning system that tracks and measures sportsman's performance over a period of time to predict growth by making them the next talent
